

复旦大学数学科学学院 数学综合报告会

报告题目: Non-uniform hyperbolic condition and thermodynamic formalism in one-dimensional dynamics

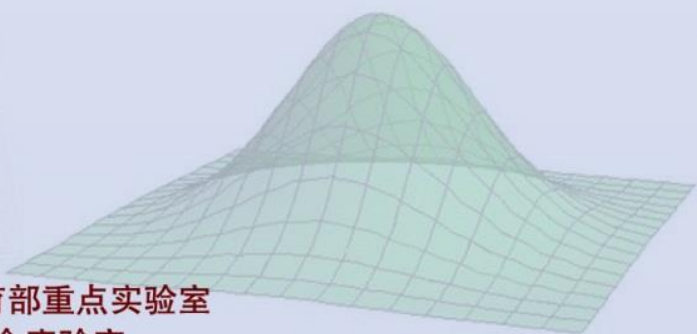

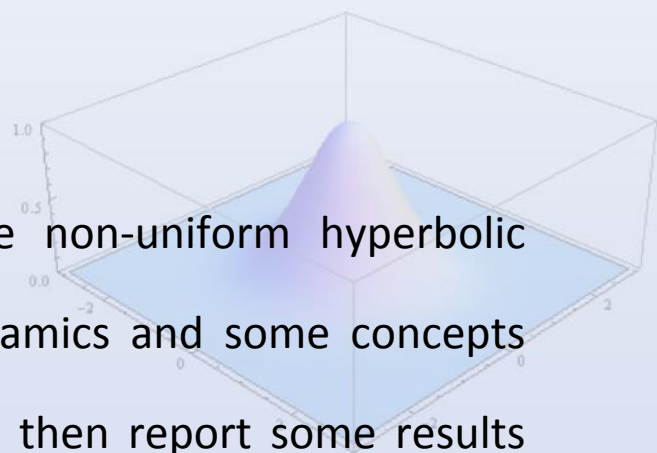

报告人: Professor Huaibin Li (Henan University)

时间: 2020-11-05 星期四 15:30-16:30

地点: 腾讯会议 ID: 108 347 642

报告摘要:

In this talk, we will recall some non-uniform hyperbolic assumptions in one-dimensional dynamics and some concepts from thermodynamic formalism, and then report some results on topological invariance of non-uniform hyperbolic conditions, and report some developments on thermodynamic formalism.
