

VARIOUS ASPECTS OF DETERMINISM

Speaker: Professor Tomasz Downarowicz
Wroclaw University of Science and Technology (Poland)

Time: Monday, November 28, 2022, 18:00-19:00

Zoom: 957 6740 0730

Code: 534246

Abstract: I will discuss the notion of a deterministic point in a topological dynamical system, especially, what is a deterministic real number, and say how deterministic numbers behave under arithmetic operation. I will conclude by a series of fascinating open problems.
