

复旦大学数学科学学院 数学综合报告会

报告题目: Zeros, Growth, Picard's theorem and Poincare's recurrence theorem

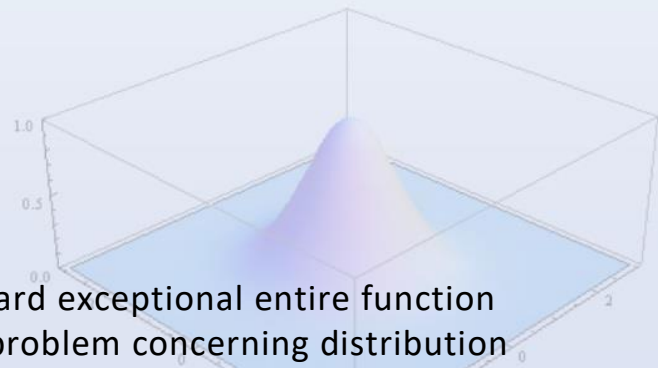

报告人: 姚潇 (南开大学数学科学学院)

时间: 2022-06-23 星期四 15: 30-16: 30

地点: 腾讯会议室: 231 580 733

报告摘要:

In this talk, we will talk about typically Picard exceptional entire function and meromorphic function and Steinmetz's problem concerning distribution of Julia direction with some tools from ergodic theory and complex analysis. This talk is based on some joint works with Zhitao Wen, Zhuan Ye, and Hui Li.
