

报告题目: Entire solutions of some differential equations 报告人: 吕巍然 (中国石油大学 (华东)) 时间: 2020-11-20 星期五 10:00-11:00 地点: 腾讯会议ID 226 251 622 报告摘要:

In this talk, we will give the entire solution forms of a certain type of nonlinear binomial differential equation. This has connections to results of Hayman, Ozawa. Moreover, relevant questions will be posed for future investigations.
